

L'SHANNA TOVAH!

**Happy Holidays from
your friends at JFS**

Repairing The World, Helping One Family At A Time

Dear Friend of JFS,

I want you to know that your support of JFS is not only greatly appreciated but of vital importance to literally thousands of people—4,478 this year alone! Over four thousand people in communities across the state who experienced hard times and difficulties in their lives turned to JFS for help last year—more than ever before. You know as well as I do that when times get tough and life gets difficult, a helping hand from a friend makes all the difference. I want to thank you for being that friend, because it is your support that allows JFS to make a difference!

JFS needs your help again this year to continue making a difference in people's lives. At this special time of year, as you reflect on the past year and embark on starting anew, I hope you'll continue to partner with JFS in our work to "repair the world". Please include JFS in your generous charitable giving this year.

I feel so good about my involvement at JFS. Eight years ago, I decided it was time for me to make a commitment to support an organization that makes our world a better place. The decision led me to JFS, where I can confidently say I found an organization worthy of my investments of time and money. The more I learn about JFS' work the more passionate I've become about it. I want you to know JFS as I do. I encourage you to be involved and learn more about us. Please consider yourself personally invited to our events, to participate as a volunteer, to subscribe to our new e-newsletter, and to check out our website to find out about the great work we are doing! I promise you, you will feel good about us too!

May you and your loved ones enjoy a New Year filled with health, happiness and joy!

Sincerely,

Edward Jordan
